I love visiting all my friends around town. I like walking around saying hi and hello to all my different friends, seeing what they're up to. All my family live here, and I like living close to the sea. I like going to the skatepark and seeing all the skaters. Everyone's very friendly to me. I draw people, and musicians that I love. I like to draw the things that make me happy. It makes me feel a lot of joy, and it helps people be friends together.
